

Call for Workshop Proposal for SAINT 2007

SAINT07 invites proposals for workshops to be held in conjunction with SAINT 2007 (International Symposium on Applications and the Internet). The workshop proposal theme should be closely related to the conference (<http://www.saintconference.org/>) topics.

Some guidelines: Each workshop proposal should clearly indicate its strength and usefulness and how it complements conference theme. It is expected that a proposal should provide a better insight into the proposed topics compared to what is covered in conference presentations.

Workshop proposals should be submitted to both workshop co-chairs and it should include the following.

- Workshop title
- Workshop description with justification
- Workshop organizer(s)' name, contact points, organizations, and the names of key organizers such as program chair(s)
- Resources required
- Information about the previous edition of the workshop (if any): attendance, number of papers submitted, number of papers accepted

Prior discussion with workshop co-chairs about the intention to submit a proposal is highly encouraged.

Every submitted workshop proposal will be reviewed by at least by two expert reviewers. The organizers of the accepted workshop proposal are responsible for promoting and advertising the workshop with proper reference to SAINT 2007. It is requested that the organizer(s) of the workshop would arrange for stringent reviewing of each submitted paper.

IMPORTANT DATES
