THE COMPUTED WORLD:
SOFTWARE BEYOND THE DIGITAL SOCIETY

COMPSAC
www.compsac.org

Creating the digital society and beyond needs all aspects of computing, software development, and software systems engineering. The computed world embraces not only the Information Technology world, but also the physical world. COMPSAC, the IEEE Signature Conference on Computer Software and Applications, is a unique forum to bring together all facets of computed world and their major stakeholders. The technical theme for the 35th conference is The Computed World: Software Beyond the Digital Society.

Multidisciplinary work, research and development of software prototypes, industry-university collaborations, all based on new emerging and critical technologies will be of particular interest to this conference.

THE INCLUSIVE INTERNET

SAINT
www.saintconference.org

The Internet has revolutionized and changed the way we communicate, socialize, entertain, access information and conduct business. It has evolved into a pervasive ecosystem of connected computers, mobile devices, sensors, home appliances, and a variety of other gadgets. This evolution has led to a deep intertwining of the physical, social and digital worlds, raising new research agendas and challenging our understanding of the requirements for a vastly interconnected world. The advent of Web 2.0, social networks, open API's, mash-ups and cloud computing are empowering Internet users into becoming Internet "makers." The symposium provides a forum for researchers and practitioners from the academic, industrial, public and governmental sectors to share their latest innovations on Internet technologies and applications.

SUBMISSION INFO AND IMPORTANT DATES

Main Conference dates:

Conference paper abstracts due: Jan 16, 2011
Full conference manuscripts due: Jan 30, 2011
Conference author notifications: April 2, 2011

COMPSAC Affiliated Workshops and Panels:

Workshop and panel proposals due: Dec 6, 2010
Workshop paper submission: March 1, 2011
Workshop author notifications: April 8, 2011
All final manuscripts and registration due: May 2, 2011

SUBMISSION INFO AND IMPORTANT DATES

Main Symposium dates:

Symposium paper submission due: Jan 31, 2011
Symposium author notifications: March 23, 2011
Workshop proposals: Nov 15, 2010

SAINT Workshop Dates:

Workshop Call for Papers: Dec 15, 2010
Workshop paper submission: Feb 28, 2011
Workshop author notifications: March 28, 2011
All final manuscripts and registration due: May 2, 2011

JOINT COMPSAC/SAINT 2011 DOCTORAL SYMPOSIUM/STUDENT SESSION

COMPSAC and SAINT will hold a joint Doctoral Symposium/Student Session in 2011. We anticipate announcing opportunities for student travel grants in January 2011. Please check the conference websites for student funding opportunity announcements.

Deadline for submission to joint Doctoral Symposium/Student Session: April 3, 2011; Student author notifications April 18, 2011
