

**The 81st National Convention of Information Processing Society of Japan (IPSJ)
March 14 - 16, 2019 Fukuoka University**

Event venue

		Event Hall #1 Bldg. A A201	Event Hall #2 Bldg. A AB02	Event Hall #3 Bldg. A A202	Event Hall #4 Bldg. A A203	Event Hall #5 Bldg. 8 Main floor OASIS	Event Hall #6 Bldg. 8 Room 826	Event Hall Bldg. 8 Room 831
14 Thu.	9:30	Come together! Managing Work-life Balance	Information Placement Test for High School and University Connection	Cyber case memoir of 2018. -- from both aspects of technology and law. --				
	11:30							
	11:40-12:30			Luncheon seminar				
	12:30	Machine Learning System and Security	Research on evaluation method in the subject of informatics for university admission examinations based on computational approach supported by Ministry of Education	The history and future of Internet services considered from Fukuoka University's public NTP service	IT and AI for a Better Future of Work: Crowdsourcing, Sharing Economy and Gig Economy		RoboCup Simulation League Spring Competition & Beginner's School	
	15:00							
	15:00	Artificial Intelligence and Game Theory				IPSJ IT Career Session		
	16:00	Unlocking the Power of People through AI						
17:00								
15 Fri.	9:30	Discrete Structure Manipulation System Project: Ten Years' Progress and Future Perspectives					RoboCup Simulation League Spring Competition & Beginner's School	
	10:30							
	10:30	Towards Quantum Computing Systems for Commercial Use						
	11:30	11:30						
	11:40-12:30			Luncheon seminar				
	12:30		How to write a good research paper	~Messages from computer pioneers ~ "My poetry and truth"	Physical modeling for seamless and bi-directional connection between cyber and physical worlds		RoboCup Simulation League Spring Competition & Beginner's School	
	15:00							
	15:00	Innovative Information Researchers Development Program for Young Talents				IPSJ IT Career Session		
	15:15	Award Ceremony						
	16:00	16:00	Computer Science Meets Mass Spectrometry for Proteomics					
	16:30	16:30	Developing the Problem-solving Capabilities of Students in Fundamental Courses in Computer Science		7th IPSJ International AI Programming Contest Samurai Coding 2018-19 World Final			
	17:00	17:00						
	17:00	17:00	Reliability Challenges for High Performance Microprocessors in the IoT Era					
17:30	17:30	Video message from President of Association for Computing Machinery						
17:45	17:45							
18:00-20:00	Causal Banquet at SKY LOUNGE in College Academic Building Floor: 16							
16 Sat.	9:30	Compulsory Programming education in Japan	The data oriented IT development strategy for a service-platform	Internationally Accredited CITP (Certified IT Professional) Scheme and Activities of CITP community	Practical Big Data and Data Analysis in Life Science		RoboCup Simulation League Spring Competition & Beginner's School	
	12:00							
	12:10-13:10							
	13:20	Exciting Coding! Junior - How to Design a Programming Workshop	Prospects and challenges of blockchain driven innovations: Digital Practice Live!	Free admission: "I have a question."	Web advertisement technology and operation	Poster Session by Junior- and Senior-Highschool Students		
15:20								
15:30							IPSJ-ONE	
17:30
